

UOL Pillars of Employability

extensive research on employer requirements across a range of sectors.

Education and articulation of your employability skills to employers.

Skills

Consider what skills you have developed already and where the gaps are. Our Skills Hub give information about the skills

- Interpersonal skills
- Decision making
- Team work
- Analytical & critical thinking
- Leadership
- Communication
- Creativity
- Self-management

Experience & Networks

yourself is to gain experience and meet new people. What do you take up next? This could include:

- Group projects
- Work placements
- Volunteering
- Part-time work
- Entrepreneurial projects

Global Citizenship

A 'global citizen' is someone who is

You'll develop subject knowledge and expertise through your interest in your knowledge of the industry/sector you are studying. You are also studying sustainable development goals. Develop this through:

- Reading news articles
- Exploring websites
- Talking to professionals
- Undertaking a global internship

Career Planning

Get to know yourself and what sort of work you would like to do. It's helpful to have an idea of your career path and what you could do.

Values/Personal Qualities

overcome challenges. Think about your values. For example, the balance over competition or teamwork.
