

# Reimagining healthcare management

We are the first business school in the world totally dedicated to educating the next generation of health and healthcare management leaders.

We reimagine global healthcare management. We unravel health challenges from a business perspective. And we question the status quo in healthcare management to inspire public good.

At UCL GBSH, our programme of education and research inspires and develops, producing graduates who go on to make a difference in healthcare across the world. Our students and staff form a vibrant and diverse community where multidisciplinary i(na0 (t)8.2 )3.7.3 Q.5 (v)1a8 (l)

Here you will connect to the world of health business by;

Learning through our health leadership and management programmes, taught by world leading academics

---

Joining a diverse community of global scholars who will disrupt and change the health and healthcare landscape

---

Unravelling health challenges with UCL's multidisciplinary academic approach

---

Designing digital health innovations that make a difference to patients and healthcare systems

---

Calculating the value rather than the costs of health

---

Building systems and processes with healthcare data analytics

---

Exploring pioneering new frontiers and ideas for health start-ups

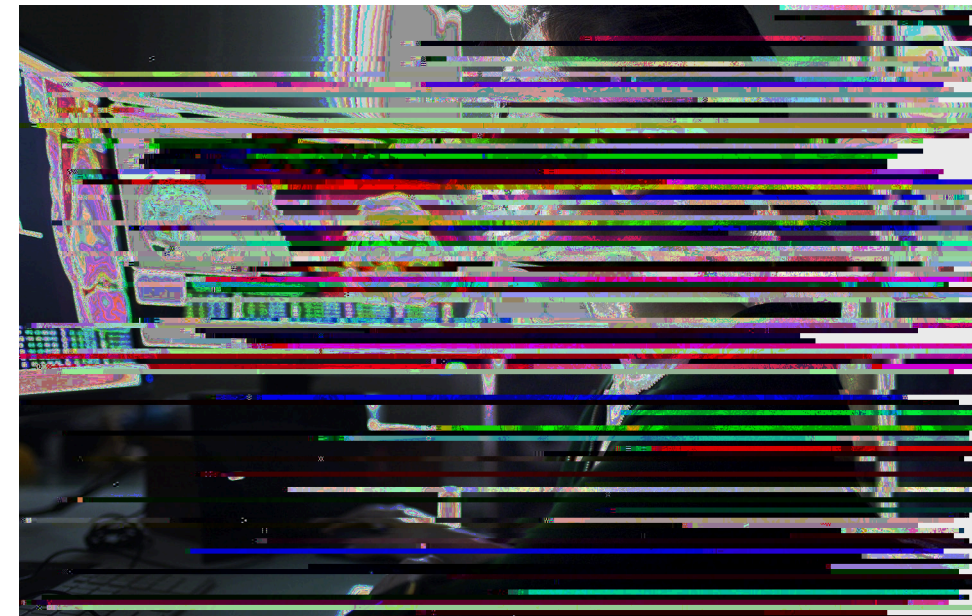

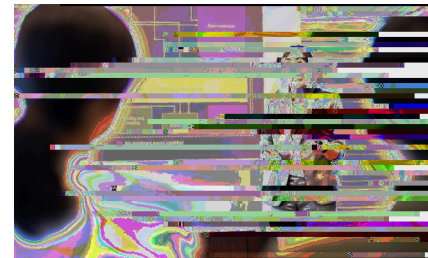

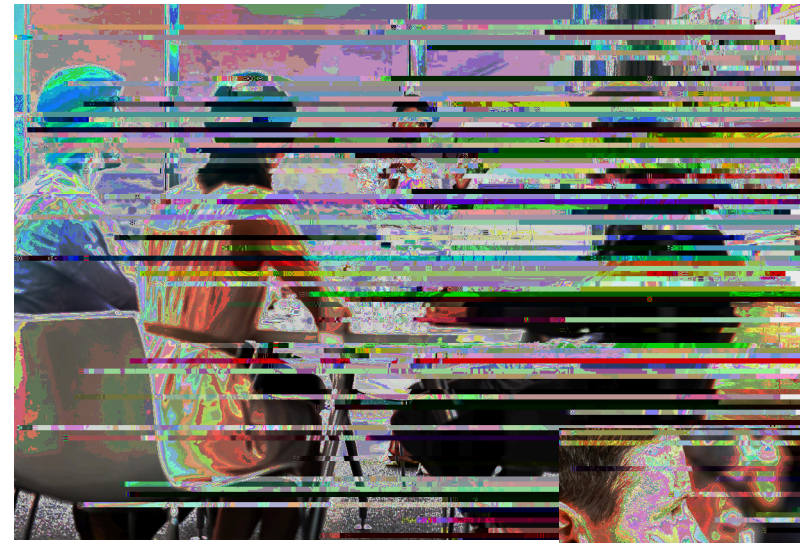

---
